

The Encompass Community For Independent Learning

AT FRIENDS ACADEMY
PRESENTS:

SUPPORTING THE MULTIPLE INTELLIGENCES...

Using a hands on, immersive approach to reframe academic material; this 6 part, multi-workshop event serves as a personal/professional development experience for any curious person. Teachers, parents, college students or anyone who works with children will especially benefit.

A vivid space enriched by guest artists (such as The Zeiterion Theater, Cape Cod African Dance and Drum, DNRT).

An experiential collaboration to deepen the understanding of our dual role as both teacher and learner. We explore our own faceted views of the world through the playful lens of creative mediums.
